**Note:** Changing the battle speed is forbidden during an active battle round. This means if the battle actions are currently performed. You still can change the battle speed between rounds when you setup your actions.

**Note:** The default battle speed requires you to click after actions. All other speeds (+x%) will execute battle actions automatically at a given pace.

## Amount popups

| Input | Action |
| --- | --- |
| Page Up | Max amount |
| Page down | Min amount (0) |
| Home (Pos1) | Min amount (0) |
| End | Max amount |
| Up | +1 |
| Down | -1 |
| Return | Confirm |
| Escape | Abort |

Right clicking on the arrow buttons will select the minimum or maximum as well but right clicking somewhere else will close the popup and abort.

# Inventory

| Input | Action |
| --- | --- |
| Ctrl + Left Click | Use item |
| Shift + Left Click | Equip or unequip item |

Right clicking a stack of items will take all of them immediately. Left clicks would open the amount popup to select how many you want to take.

Dragging items can be aborted with right click or escape key.
